

Talks will take place in the DLC Auditorium (new location)

Pizza and soft drinks will be provided!

Friday January 19th, 12:00 pm

Dr. David Sand

Assistant Professor of Astronomy, University of Arizona

“Unveiling the Physics and Progenitors of Cosmic Explosions with a One Day Cadence Supernova Search”

Friday February 9th, 12:00 pm. Special location: Jim and Linda Lee Planetarium

Dr. Gerrick Lindberg

Assistant Professor of Chemistry, Northern Arizona University

“Understanding the origins of life and other problems in astrochemistry with molecular simulations”

Friday March 2nd, 12:00 pm

Dr. Quentin Bailey

Associate Professor, ERAU

“Modern Tests of Einstein’s Relativity”

Friday March 23rd, 12:00 pm

Dr. Brian Crawford

Postdoctoral Research Scientist, Georgia Cooperative Fish and Wildlife Research

“Structured Decision Making for Wildlife Conservation”

Friday April 6th, 12:00 pm

Dr. Phil Willems

LBTI Project Manager at NASA’s Jet Propulsion Laboratory

“Searching for Exozodiacal Dust with the Large Binocular Telescope interferometer”

Friday April 20th, 12:00 pm

Dr. Haakon Andresen

Max Planck Institute in Munich, Germany

“Probing the Explosion Mechanism of Core-Collapse Supernovae”
