

EMBRY-RIDDLE

Aeronautical University

PRESCOTT, ARIZONA

College of Aviation

~Mission Statement~

Mission Statement: The *Embry-Riddle* mission is to teach the science, practice, and business of aviation and aerospace, preparing students for productive careers and leadership roles in service around the world.

The ***goal*** of the College of Aviation is to provide the aviation professionals of tomorrow with the knowledge, skills, abilities, and judgment necessary to succeed in a global aviation community.

The College of Aviation is committed to preparing students to be leaders in the aviation and aerospace industry. The work of our graduates is recognized both nationally and internationally and reflects the mission of the College to cultivate values-based professionals in a dynamic and global environment.

- Creating a transformational learning experience that prepares graduates for success in a diverse, complex global environment.
- Nurturing a faculty that values and exhibits excellence in teaching, intellectual exploration, creating and extending knowledge, and improving management practice and organizational performance.
- Developing partnerships with external communities to establish the College of Aviation as a leader in all facets of aviation and safety education.
- Building a sustainable resource base and infrastructure for College of Aviation programs and activities.
