

Undergraduate Research Institute (URI) promotes research, scholarly, and creative activities at the undergraduate level. By enhancing critical thinking, problem solving and communication skills, URI helps to prepare Embry-Riddle students to contribute as productive individuals, employees, and citizens. URI is university-wide and invites students and faculty from all disciplines to participate.

## WHY PARTICIPATE IN URI?

- /// Gain hands-on research experience
- /// Participate in national competitions
- /// Strengthen your resume
- /// Network with industry leaders, faculty, and students

## PARTICIPATION IN URI INCLUDES:

- /// One-on-one work with faculty mentors
- /// Workshops in Ethics & Professionalism
- /// Presentations, Scholarships and Fellowships
- /// Share your findings at the ERAU Undergraduate Symposium, ERAU Discovery Day, ERAU outreach events and external conferences

The URI provides more than \$100,000 annually in funding for student research and development, scholarly and creative activities, and competition-based grants.
